

WattPower

About Us

We began our journey in Germany in 2013 and have been growing stronger ever since. From the very beginning, our focus has been on the future—investing in and embracing cutting-edge technologies. Over time, our name has become synonymous with superior quality, transparent business practices, exceptional service, and a relentless drive for growth.

For nearly a decade, we have been at the forefront of the solar technology revolution, continuously learning, evolving, and scaling through exposure to world-class projects, products, and global best practices. We were proud to be the first to introduce String Inverters in utility-scale projects, setting a new benchmark for the industry.

Our growth story has been extraordinary, marked by consistent 100% year-on-year expansion and a 30% market share across our categories. Today, with a presence in 10 countries across Central & Western Europe and South Asia, we have cumulatively delivered more than 18 gigawatts of clean, carbon-neutral energy in India alone.

As part of a group that has consistently crossed the USD 1 billion+ revenue mark year after year, Wattpower is uniquely positioned to unlock new opportunities and drive purpose-led, sustainable growth—powering a cleaner and brighter tomorrow.

Why Us?

We offer vibrant company culture that promotes open communication, transparency, and a strong sense of camaraderie. We work hard, have fun, and celebrate achievements together.

Job Title: Production Engineer

Location: Factory Address Wattpower Systems Pvt Ltd

Plot No K-24 Sipcot Industrial Park, Mambakkam Sriperumbudur Taluk, Dist – Kancheepuram, State
Name: Tamil Nadu - 602105

About Us:

WattPower is a fast-growing innovator in clean tech and sustainable energy solutions, committed to delivering high-quality, reliable products that power a greener future. As we expand our operations and scale production capabilities, we are seeking talented professionals who can combine technical expertise with operational excellence. Our mission is to drive impactful changes through cutting-edge engineering and efficient manufacturing processes — and we're looking for people who share that vision.

Job Overview:

The Production Engineer will play a key role in ensuring smooth, safe, and efficient manufacturing operations at WattPower. This role involves overseeing day-to-day production activities, maintaining compliance with quality and safety standards, and optimizing resources to meet production targets. The ideal candidate will be hands-on, detail-oriented, and skilled in managing both people and processes to deliver consistent results. From driving process improvements to ensuring cross-functional coordination, the Production Engineer will be essential in helping WattPower meet its operational goals and maintain industry-leading quality standards.

Key Responsibilities:

- Manage overall production activities and achieve production targets.
- Ensure production and manpower safety on the shop floor.
- Ensure material availability for production and manage WIP (Work In Progress) inventory effectively
- Ensure compliance of production processes with prescribed ISO standards and 5S practices
- Conduct root cause analysis and implement corrective actions to resolve production and quality issues, minimizing downtime.
- Coordinate with cross-functional teams (CFT) to ensure timely resolution of issues
- Evaluate team members' performance daily.
- Manage operators' attendance.
- Develop multi-skilling capabilities among operators.
- Demonstrate the ability to adapt to changing priorities and respond accordingly
